A full table. Every week.

At your café.

Ayvro brings small, hand-picked groups of young professionals to cafés for dinners, quiz nights and long conversations. Live in Gurgaon.

how ayvro works

Strangers apply.

We pick the table.

1

Members apply

They swipe through the plans we post and ask for a seat at the ones they'd actually go to.

2

We build the table

Host briefing, Introverts' Dinner

• how we partner

A regular night.
A shared upside.

1. **We visit and pick the formats that fit your space**
2. **First evening on a slot that suits you: we bring the guests, the host and the promotion**
3. **We share the numbers: guests, bill and feedback**
4. **We lock a regular night, every week or a fixed weekend each month**

REVENUE SHARE

You earn from every table. We share in what our tables spend.

Guests order à la carte at your menu prices and pay you directly. Ayvro takes an agreed share of the bill from our tables, settled weekly or monthly.

- ✓ **No fixed fee, no minimum spend from you**
- ✓ **A full table on your quiet nights**
- ✓ **Simple to track: one code per Ayvro table**

Prefer a guest discount instead of a share? That works too. We set it up the way that suits your café.

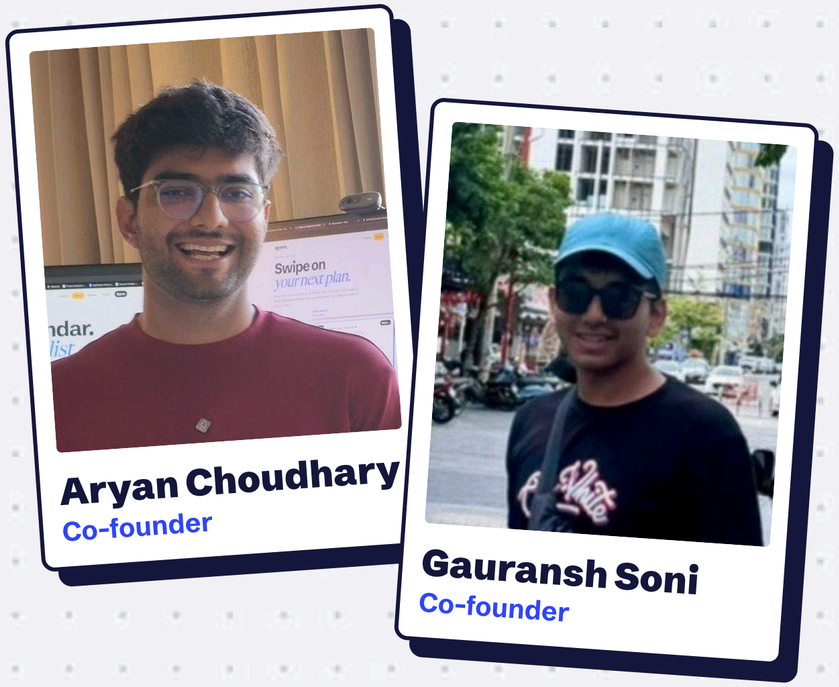
• why we built ayvro

We were the people who needed Ayvro.

Making friends after college is hard. Social media made it lonelier.



THE PROBLEM

Feeds full of people, weekends with no one. New city, no plans, and no easy way to meet people you'd actually like.

OUR ANSWER

Offline social media. Swipe on plans, not people. We hand-pick the table. You just show up.

We come from AI, so we know more of life is moving onto screens. Ayvro is the reason to log off.

7 YEARS AGO

IIT Delhi

Friends since college. Now like brothers.

2023

Gurgaon

Corporate jobs, then the founding team at an AI startup. A city full of people, empty weekends.

THIS YEAR

Bali

A month inside communities, learning what makes strangers feel at home.
